

# Cisco Training & Certifications for Modern Business

**Cisco certifications have gone through a significant evolution** that addresses the needs of the modern network, requiring both infrastructure and software expertise, and the modern learner, serving up cutting-edge content. This is Cisco's biggest change to certifications in 25 years. New certification tracks mean new learning options designed to empower you with the flexibility to invent and reinvent yourself to make a real difference in the roles you play in your organization.

## WHAT'S NEW?

- ▶ All new courses and certifications
- ▶ Simplified certification tracks, with only one exam required for CCNA certification and only 2 exams required for CCNP certifications
- ▶ New Specialist Level earned after the first exam is taken in a CCNP track
- ▶ Easier route to CCIE - half-way to completion with a CCNP Core exam
